Starter Deck

Magic: The Gathering is the first in the Deckmaster series of collectible trading card games from Wizards of the Coast. Featuring 300 different cards, this is a fantasy game of epic proportions. Some cards are fairly common, some uncommon, and some very rare. Every player has their own personal deck! Challenge your friends, build a reputation, or participate in tournament play. There is always more for you to discover in *Magic: The Gathering*, so remember... your opponent is never defeated until the last life point has been taken.
